

## Program Sponsors

### BASIC 101 Irrigation Training

*Bruce Funnell · CID, CID-Golf, CLIA*

*The Toro Company, Specification Manager, Southeast*

An efficient irrigation system is more than just making the water come out of the sprinklers. Part One of the program takes the installation or service technician through the basic principles of sprinkler coverage and optimizes plant health and appearance. Come find out how to incorporate principles into their jobs every day.

#### About the Speaker:

Bruce has worked in the irrigation industry since 1977, over 40 years. I have worked in Michigan the Midwest, NE, Eastern Canada, SE and now reside in Florida.

- 1.) Certified Irrigation Designer Golf Course (CID)
- 2.) Certified Irrigation Designer Commercial (CID)
- 3.) Certified Landscape Irrigation Auditor (CLIA)
- 4.) EPA WaterSense Partner

### Solvent Cement Certification

*Stephen Gardiner, Weld On & Christy's*

Weld-On® has set the standard for quality, reliability and sustainability since 1954. This portion of the training will provide key tips on proper solvent welding techniques for small and large diameter plastic pipe and fittings. Complete the day with a solvent certificate.

#### About the Speaker:

Mr. Stephen Gardiner is a bilingual technical services manager for IPS Corporation which manufactures Weld-On solvent cements and primers. Based out of Hillsborough, NC., he has personally trained more than 10,000 installers in proper solvent welding techniques since 2005.
